

Real Madrid in the Champions League: pooled refereeing gaps

Same sample across the three columns: matches with valid possession and shots. 218 Real Madrid matches in 19 seasons (2007/08 to 2025/26).

Raw: venue only. Pre-match: season, stage, opponent and Elo expected-score ventile fixed effects. Style: adds own-possession bins and both teams' shots. These same-match controls respond to decisions; the style column is descriptive. 'I fouls called' conditions net yellow cards on own and opponent fouls. Intervals: 95% season-block cluster (CR1) with t criticals on seasons minus one. Positive = favorable to Real Madrid. Unit: team-match; matches with extra time count once. Source: ESPN.
