

Net yellow cards by season: Barcelona and Real Madrid vs. Europe's elite clubs

Each club relative to the average non-elite club in its own league and season. Shaded: through 2017/18 (Negreira payments).

Barcelona Real Madrid Club named in panel

Season-specific coefficients from a regression with home, league-season, opponent, pre-match win-probability and possession-bin fixed effects. Positive = more favorable decisions. Sources: ESPN, football-data.co.uk.
